Innovate

- **Flexible & Configurable** – unmatched configurability assists in improving hiring procedures. Create unique forms with user-defined data elements that support existing workflows
- **Workflow Capabilities** – adapts to workflows allowing you to tailor specifically to requirements and automate processes. Track every step of the approval workflow to provide transparency and accountability
- **Easy Integration** – enables you to quickly implement within your existing talent management system. Acendré APIs are designed to integrate with minimal effort through the Acendré Partner Cloud
- **Reporting & Analytics** - provides insights to improve the performance of your HR function. Easy-to-use dashboards and reports deliver information in real-time to create data-driven HR decisions
- **Candidate Short Listing** – automate and streamline short-listing candidates to speed up candidate selection. Creation of certificates and selection reports is simplified to ensure hiring managers can focus on qualified candidates

Benefits

- Attract better qualified candidates
- Enhance the candidate experience
- Accelerate time to hire
- Reduce the cost to hire
