

Empowering organisations to attract, develop and retain the best talent

- **Recruitment** – attract and hire talent quickly and efficiently with a proven solution that supports your workflow requirements and provides a seamless candidate experience
- **Onboarding** – ensure your new employees hit the ground running by automating processes and simplifying the onboarding function
- **Performance Management** – align employees' performance with your organisation's objectives, while improving engagement and retention
- **Learning & Development** – integrate a Learning Management System within a rich learning ecosystem that fosters collaboration and communication
- **Talent Analytics** – provide insights to improve the performance of your Human Resources function

The world's most configurable Talent Management solutions underpinned by powerful reporting and analytics

As an Australian leader in secure, cloud-based talent management solutions we understand that people are your most important investment. Complex HR environments like public sector, education and healthcare need a more flexible solution for linking talent management strategies to organisational success. Acendré's unparalleled configurability enables you to significantly decrease both the time to hire and acquisition costs while developing and retaining the best talent.
